

**DATE/TIME:** April 1, 2015 / 6:00-9:00 p.m.

**LOCATION:** Milwaukee Environmental Sciences Charter School  
6600 West Melvina Street  
Milwaukee, WI

**PROJECT:** Dineen Park Master Plan

## **Public Workshop Agenda**

6:00 – 6:10 Sign – in

6:10 – 6:20 Project Overview

6:20 – 7:00 Preliminary Analysis

7:00 – 8:30 Workshop

8:30 – 9:00 Closing Remarks and Next Steps

## Project Description

The City of Milwaukee and Milwaukee County Parks would like your input and support in the development of the Dineen Park Master Plan. The purpose of the Dineen Park Master Plan is to develop a comprehensive vision for the 64 acre parkland in context with its location, natural resources, and vision of the community. This vision will act as a framework for the park's use and development over a 20 to 30 year time period.

The master plan will incorporate the detention facility design from the 2013 neighborhood storm water study. The first of adopted design recommendations from the neighborhood storm water study is the trash rack near the intersection of North 63<sup>rd</sup> Street and West Melvina. Together the detention facility and trash rack will aid to mitigate localized flooding in the surrounding neighborhood. The master plan design recommendations will build upon the green infrastructure amenities in the park without compromising existing park programming. The upcoming public workshop will be a forum to draw out the community's ideas for the park, establish additional goals, and identify opportunities and constraints within the park that will guide the development of the park master plan.

When complete, the master plan will illustrate a summary of the planning process and document the project goals, public input, environmental impact analysis, recommended park improvements, and implementation recommendations. The final master plan report will be presented to the City and County Parks Board for acceptance and implementation.

You are invited to help the City and the planning design team by sharing your thoughts and recommendations for the Dineen Park Master Plan. Your thoughtful input will provide critical background information and opinions to the planning and design team as they advance the master plan process.
